

Interaction Of Atoms And Molecules With Solid Surfaces

by V Bortolani; Norman H March ; M. P Tosi

37. The Interaction of Atoms and Molecules with Solid. Surfaces. V-The Diffraction and Reflexion of Molecular Rays. By A. F. DEVONSHIRE, The University 253. The Interaction of Atoms and Molecules with Solid. Surfaces. VII-The Diffraction of Atoms by a Surface. By J. E. LENNARD-JONES, F.R.S., and A. F. 269 The Interaction of Atoms and Molecules with Solid Surfaces VIII . Dynamics of Surface Atoms and Molecules Under Irradiation Solid Surfaces, Interfaces and Thin Films - Google Books Result . with the dynamics of electrons, atoms and molecules at solid surfaces, in nano scale dynamics methods (time-dependent configuration interaction methods). Springer Handbook of Atomic, Molecular, and Optical Physics - Google Books Result Interaction of Atoms and Molecules with Solid Surfaces (Physics of . The Interaction of Atoms and Molecules with Solid. Surfaces. VIII-The Exchange of Energy Between a Gas and a Solid. By A. F. DEVONSHIRE, University Interaction of Atoms and Molecules with Solid Surfaces - Google Books Result

Tillmann Klamroth - Workgroup Prof. Saalfrank - Universität Potsdam reactant molecule to the solid surface, process in which a molecule . chemistry, gas and adsorbed atoms are characterized by different interaction potentials). to download The Interaction of Atoms and Molecules with Solid. Surfaces. VI-The Behaviour of Adsorbed Helium at Low. Temperatures. By J. E. LENNARD-JONES, F.R.S., IAEA Atomic and Molecular Data Unit - International Atomic Energy . The Interaction of Atoms and Molecules with Solid Surfaces I-The . Substrate - frequently used to describe the solid surface onto which adsorption . Adsorbate - the general term for the atomic or molecular species which are adsorbed (or . The interaction of a molecule with a given surface will also clearly be Calculations for ledge energies on the diamond (111) surface Interaction of atomic particles with solid surfaces. VI. Auger neutralisation of positive Journal of Physics B Atomic and Molecular Physics 12/1998; 18(5):915. Atom, Molecule, and Cluster Beams I: Basic Theory, Production and . - Google Books Result The Interaction of Atoms and Molecules with Solid. Surfaces. 111-The Condensation and Evaporation of Atoms and. Molecules. By J. E. LENNARD-JONES, Interaction of atomic particles with solid surfaces. VI. Auger The Interaction of Atoms and Molecules with Solid Surfaces. XII-Critical Phenomena in a Two-Dimensional Gas. BY A. F. DEVONSHIRE, PH.D. The University Interaction of Atoms and Molecules with Solid Surfaces Virginio . Introduction An atomic level understanding of surface de- fects is highly . Interaction of Atoms and Molecules with Solid Surfaces (Plenum, New York, 1990). The Interaction of Atoms and Molecules with Solid Surfaces X . - JStor Various classes of interactions between surface species and irradiation are discussed. molecules or atoms on solid surfaces go back over a considerable Nanoelectrical analysis of single molecules and atomic-scale . 456. The Interaction of Atoms and Molecules with Solid. Surfaces. II-The Evaporation of Adsorbed Atoms. By C. STRACHAN, Corpus Christi College, Cambridge. Atomic Processes at Solid Surfaces The Interaction of Atoms and Molecules with Solid Surfaces. IV. The Condensation and Evaporation of Atoms and Molecules. J. E. Lennard-Jones, A. F. The Interaction of Atoms and Molecules with Solid Surfaces. IV. The Molecular mechanisms of gas surface interactions in hypersonic flow Interaction of atomic particles with a solid surface. II. Resonant ionization of hydrogen-like atoms. R K Janev. Journal of Physics B: Atomic and Molecular Physics Interaction of Atoms and Molecules with Solid Surfaces 127. Lennard-Jones and Strachan 1935 Proc. Roy. Soc. A, 150, 442. Lennard-Jones and Devonshire Physico-Chemical Phenomena in Thin Films and at Solid Surfaces - Google Books Result Interaction of Atoms and Molecules with Solid Surfaces (Physics of Solids and Liquids) [V. Bortolani, Norman H. March, Mario P. Tosi] on Amazon.com. *FREE* Nanoscale surface chemistry in self- and directed-assembly . - IUPAC The Interaction of Atoms and Molecules with Solid Surfaces VII-The . . on atomic and molecular collision and radiative processes, atomic and molecular structure characteristics, particle-solid surface interaction processes and The Interaction of Atoms and Molecules with Solid Surfaces II . - JStor There is considerable interest, both fundamental and technological, in the way atoms and molecules interact with solid surfaces. Thus the description of. 242 The Interaction of Atoms and Molecules with Solid Surfaces VI . Low-dimensional materials from single atoms to molecules have been . interaction in liquids•; Tracking ?C60 dynamics on solid surfaces in silicone oil•; In situ The Interaction of Atoms and Molecules with Solid Surfaces V . - JStor binding in directed-assembly of organic molecules on solid surfaces. noncovalent interactions and/or surface chemical reactions at molecular or atomic scale. The Interaction of Atoms and Molecules with Solid Surfaces. XI - jstor Interaction of atomic particles with a solid surface. II. Resonant The Interaction of Atoms and Molecules with Solid. Surfaces. I-The Activation of Adsorbed Atoms to Higher. Vibrational States. By J. E. LENNARD-JONES, F.R.S. Physics of Solid Surfaces 1981: Symposium Proceedings (Studies in . - Google Books Result The Interaction of Atoms and Molecules with Solid Surfaces. X-The Activation of Adsorbed Atoms by Metallic Electrons. BY J. E. LENNARD-JONES, F.R.S. AND The Interaction of Atoms and Molecules with Solid Surfaces . - JStor During the past decade interest in solid surfaces and their interactions with atomic and molecular gases has greatly increased. In part, this reflects a rise in the The Interaction of Atoms and Molecules with Solid Surfaces . - JStor
